Halo, Incinerator

You burn like fire baby,
You shine like the stars tonight,
You can blow me away, but that's OK,
Because you set my soul alight.

So come on baby incinerate me now,
Come on baby incinerate me now.

I wish for a chance to kiss you,
You move with a flawless style,
You know I shiver everytime your eyes meet mine,
You're a demon with a venus smile.

So come on baby incinerate me now,
Come on baby I'm hallucinating now,
So come on baby incinerate me now,
Come on baby I'm hallucinating now,
Now, now, now.

Well you're a goddess and you know it baby,
That's why I wanna be alone with you,
And when I feel you ignite, it feels so right,
Thats why I'm in heaven every time you do.

So come on baby incinerate me now,
Come on baby I'm hallucinating now,now,
So come on baby incinerate me now,now,
Come on baby I'm hallucinating now,now.

Come on get physical, Come on get physical. x4
