Television Personalities, Honey For The Bears

I didn't come all this way to bring you down
I didn't come all this way to make you frown
I didn't come all this way to make fun of you
You know that's something I'd never do
When I'm with you I swear
You're like honey for the bears
I didn't come all this way to criticise

I didn't come all this way to empathise
I didn't come all this way to make fun of you
When I'm with you I swear
You're like honey for the bears
And Honey gets all that wants
Honey gets all that she needs
