

32 Leaves, Wide Awake

Wide awake

Fear is now the only thing thats keeping me

Wide awake

With no evidence your new defense is useless

You can find your way around it, the obvious truth

Back when inebriant and ignorant and cruel

I was spinning all around just waiting here for you

To find your way in

Hoping you find your way in

Cause Im wide awake

You are now the only thing thats keeping me

Wide awake

Yeah Im wide awake

Fear is now the only thing thats keeping me

Wide awake

You were brilliant turned hesitant fool

You just have to look around youll figure out its true

That when inebriant youre ignorant and cruel

And Im the fool standing here waiting up for you

To find your way in

Hoping you find your way in

{chorus}

Fearing me obsolete

Thinking I should clear out my mind

So I cant

Hesitate, complicate, anything anymore

Its a

Slow defeat empty sheets look at me lying on the floor

Its a

Slow defeat empty sheets look at me wanting so much more

{chorus}
