Harry Nilsson, Alimony

In the wintertime keep your feet warm
But keep your clothes on and dont forget me
Keep the memories
But keep your powder dry too
In the summer by the poolside
While the fireflies are all around you
All miss you when Im lonely
Ill miss the alimony too
Dont forget me - dont forget me
Take it easy if only for a little while
You know I think about you
Let me know you think about me too
And when were older and full of cancer
It doesnt matter, come on get happy
Cause nothing lasts forever
But I will always love you
Dont forget me, please dont forget me
Make it easy if just for a little while
You know I think about you
Let me know you think about me too
