The Ark, Stj

Ropen har tystnat nu
Ljuset frn alla hus
Lyser in i ditt rum ikvll
Lt de aldrig ta ifrn dej det du var:
En stjrna och tillika ett barn

Stjrnebarn, m du lysa klart
Inom dej har du alla svar

Kudden som kramats hrt
Fuktig av ensam grt
Aldrig mer gr du dit igen
En dag ska ngon se hur stjrnan lyser nr du ler
En dag ska du f allt det du vill ge

Stjrnebarn, m du lysa klart
Inom dej har du alla svar

Alla dom som hotar och slr
Fr att skydda sina egna sr
Ingen ser, ingen frstr
Snart ska du st p egna ben
Lysa starkt med en stjrnas sken
En dag ska de andra f se

Stjrnebarn, m du lysa klart
Inom dej har du alla svar

==English translation==

The shouts are silent now
The lights from all the buildings
are shining into your room tonight
Let them never take from you what you were:
A star and moreover a child

Starchild, may you shine bright
Inside you've got all the answers

The pillow that have been squeezed tightly
damp from lonely tears
Never again will you go there
Someday somebody will see how the star shines when you smile
Someday you will recieve all what you long to give

Starchild, may you shine bright
Inside you've got all the answers

All the ones who threaten and beat
to protect their own wounds
Nobody sees, nobody understands
Soon you will stand on your own legs
Shine bright with the light of a star
One day you will show the others

Starchild, may you shine bright
Inside you've got all the answers
