The Brian Setzer Orchestra, Drive Like Lightning

I'm gonna take my baby
On a little joy ride
She'll be ghost-white pale
Sittin' by my side
Shakin' like a leaf
And it ain't no wonder
Drive like lightning
Crash like thunder

I'm gonna race with the devil
Speedin' down the track
And if he beats me to the line
I ain't a-comin' back
You ain't worth nothin'
When your six feet under
Drive like lightning
Crash like thunder

Drive like lightning
Crash like thunder
Ain't worth nothin'
When your six feet under
All wrapped up
In hot chrome and steel
Drag my body
Behind the wheel

Got a pair of dice swingin'
In my Detroit casket
I got a rabbit foot hangin'
From my black leather jacket
We won't get out alive
So it ain't no wonder
Drive like lightning
Crash like thunder

Baby please try to understand
I'm just a little speck of dust
Blowin' in the sand
We won't get out alive
So why should we wonder
Drive like lightning
Crash like thunder
