38 Special, Chain Lightnin'

On a rainy night, you showed up at my door Child of the night, down and forlorn Still I took you in, it's in the stars above All girls are made the same, they all need a little love And the magic of the moment Exploded with desire When the time is right, the sparks ignite And set the night on fire It's chain lightnin', too hot to fight Hot on the heels of a saturday night Chain lightnin', out of control Straight to the heart and down to your soul Chain lightnin', heavens above Another day older, still searching for love Chain lightnin, too hot to fight And it's hotter than hell, in the heavens tonight I was livin' hard, I was feelin' down and lonely When toward the boulevard, a limousine moved slowly And I noticed in the back seat, a lady wrapped in fur Her eyes burned through me, and mine stared back at her And I recognized the moment As I opened up her door I knew I would regret it I've been burned before (Chorus) And lord it's so hot when the chain reaction Is set off with a kiss And it's so tough when the satisfaction Is greater than the risk When you look in her eyes and you realize

This time you can't resist It's chain lightnin' And the magic of the moment Exploded with desire

When the time is right the sparks ignite And set the night on fire

(Chorus) Chain lightnin'
