Ima Robot, Two Hearts Too Young

Remember me,
The one with the heart?
Come see me now.
Remember me,
The one with the soul?
Come see me now.
Remember how high we used to fly?
Come see me now.
Remember how we held up the sky?
Come see me now.
Its crashed.
The dreams we killed
The blood we spilled
We had our run:
Two hearts too young
The love we built
The sky we filled
It crashed and spun
Two hearts too young
The dreams we killed
The blood we spilled
We had our run:
Two hearts too young
The love we built
The sky we filled
It crashed and spun
Two hearts too young
All the lust for life in our blood
Come see me now.
All the love that spilled from our guts
Come see me now.
Remember me,
The one with the heart?
Come see me now.
Remember how it all fell apart?
Come see me now
I'm gone.
The dreams we killed
The blood we spilled
We had our run:
Two hearts too young
The love we built
The sky we filled
It crashed and spun
Two hearts too young
The dreams we killed
The blood we spilled
We had our run:
Two hearts too young

Two hearts too young

Well I guess we were just too young (laughs)

Two hearts too young
Two hearts too young

Hey, come see me now
I'm gone.
