

# 38 Special, Little Sheba

It's been rainin' so hard  
Been lonely so long  
'Til you reached in the dark  
I never thought you'd find me  
But now I walk in the light  
Wherever I go  
I wanna feel the strength  
Watch it unfold  
Share it all with you  
There's one thing that I know, yea.

Chorus:

It runs deep  
When love strikes  
It hits so hard, stops you dead in your tracks  
It takes over from inside  
When love strikes  
It's spreading like fire  
My heart's melting like ice  
It's lightning traveling on wire  
Hit me straight between the eyes, yea  
I wanna take it tonight  
As far as it goes  
I wanna feel the strength  
Watch it unfold  
Share it all with you  
There's one thing that I know, yea

Chorus

You may not recover  
You'll know it's right  
When love strikes
