

# 38 Special, Prisoners Of Rock & Roll

The searchlight cuts through the heart of the night  
We know your out there, don't put up a fight  
If you resist your gonna miss all of the fun  
From that backbeat rhythm you just can't escape  
You can plan your break, but baby your gonna surrender  
Baby your under the gun

Let it down just as far as you can  
Shakin' violation again and again  
So come on rock and roll prisoners  
Let the music turn the key to your soul  
There is no escaping when the joint is shakin'  
We're prisoners, prisoners of rock and roll. Oh No

I was just a boy when the music took hold  
Watchin' the Stones on the Sullivan show  
I was hooked, their rockin' took me away  
Well I had my dreams and I made my plans  
Now I'm out on the road and got my home in my hand  
And I'm lonely, sometimes its a ball and a chain

Let it down just as far as you can  
Shakin' violations again and again and again  
Rock and roll prisoners  
Come on rock and roll prisoners

Guitar solo

Yeah yeah yeah yeah  
Let it down just as far as you can  
Shakin' violation again and again  
So come on  
Come on  
Come on  
Come on rock and roll prisoners  
Let the music turn the key to your soul  
There's no escaping when the joint is shaking  
We're prisoners, prisoners of rock and roll  
Oh no  
Just a prisoner.....
