James Reyne, Company Of Strangers

So far away you know you're lost little girl
You're really not looking your best
Close your eyes you're in your own little world
The semi - trailers you know they slip by

Chorus ~
And I never wanted to stay
I'm only dancing with danger
And I could have walked out that way
Don't give me reasons
I'm in the company of strangers
I'm in the company of strangers

It's not easy to see when your home is so far
And now the big house is all you're gonna need
Another cry in the jungle bar don't you know

Chorus +
I'm in the company of strangers.

And I never wanted to stay
I'm only dancing with danger
And I could have walked out that way
Don't give me reasons
I'm in the company

And I never wanted to stay
I'm only dancing with danger
And I could have walked out that way
Don't give me reasons
I'm in the company
Don't give me reasons
I'm in the company
Don't give me reasons
I'm in the company of strangers
