Janet, You Want This

My girls
Goin' 'round talking
They say that you've been
Watchin' me boy
I know
By the way you're talkin'
That you're really tryin'
To get to me boy

Not anyone I'll just let in my heart
You have to be hungry for me
Girls may have been easy
But you have to please me
What makes me think
That I can say this to you
I know how bad you want this

Chorus:
If you want my future then
You better work it boy
No it won't come easy no
I know you want this
By the time I'm through with you
You'll be beggin' me for more

I know
Your whole story
Because you're fine and
And you know it
You think
That you can have me
Just listen closely
No it ain't so easy
Every word
You've said I have heard before

Girls may have been easy
But you have to please me
One thing I've been told
Nothin' else compares
To this lovin' body

Repeat Chorus

So you want my lovin'
I know you want this
If you want my future then
You better work it boy
No it won't come easy no
I know you want this
By the time I'm through with you
You'll be beggin' me for more

You want this
You want this
Can you handle this
Well, come here then

Early in the mornin'
Late in the evenin'
Just around about midnight
'Cause you know I'll do you right baby
What's my name boy
'Cause you gotta say my name boy

Just a little bit louder now
Just a little bit softer now
Nice and easy
