38 Special, Somebody Like You

Shoulda kept my distance

Shoulda known what I be riskin

But nothin short of holding you would ever do

Darlin

If we could be together

I would wait for you forever

But how am I gonna win if you never lose

I could feel the pressure

I could see you were something special

I couldn't walk away from you if I'd tried

Darlin

I wanna be near you

If only you'd feel like I do

I must've had it wrong, I shoulda known

Somebody like you could break my heart

Somebody like you could tear my world apart, oh yeah

Somebody like you could keep me in the dark

Somebody like you could break my heart, yeah yeah

I knew that I was fallin

I could hear your heart beat callin

I was hopin you'd be mine before the night was through

Darlin

I could keep on loving you

If there's a chance to somehow break thru

I must've had it wrong, I shoulda known

Somebody like you could break my heart

Somebody like you baby

Somebody like you I'm tellin ya

Somebody like you could break my heart

Yeah yeah yeah

Guess I new right from the start

That you were a pretender

But it was you who held my heart

I got love I wanna send you

Yeah, are you ready to surrender, oh yeah

Somebody like you could break my heart

Somebody like you could tear my world apart, oh yeah

Somebody like you could keep my in the dark

Somebody like you baby

Somebody like you I'm tellin ya

Somebody like you could break my heart
