

# 38 Special, Tear It Up

I got a black top road out in front of me  
And I might just tear it up  
I gotta rock'n'roll jones pumpin' in deep  
Just might tear it up  
Gimme a bar room floor a back beat band  
Play the kinda music I can understand  
Sweet sixteen take me by the hand just might tear it up.  
Tear it up hey I just might tear it up  
Tear it up Tear it up  
Ya know I just might tear it up  
I got a ticket from a cop on the way over here  
Just might tear it up  
I got the repossession notice for my car right here  
Just might tear it up  
Oh one of these nights I ain't lyin'  
If the moon is right and I feel like flyin'  
Sweet sixteen take me down the line just might tear it up  
Chorus  
The way you rock and roll me you make it look so easy  
And when you're out on the floor baby  
You make it look so easy  
Hey you really touch my soul baby  
You make it You make it  
Tear it up  
The way you rock and roll me you make it look so easy  
And when you're out on the floor baby  
You make it You make it You make it  
We got the rock'n'roll band pumpin' tear it up  
We got the kids in the gym jumpin' tear it up  
We got the chaperones hip hoppin' tear it up  
We got sweet sixteen  
Sweet sixteen take me by the hand Tear it up  
Sweet sixteen take me by the hand Tear it up  
Sweet sixteen take me by the hand Tear it up
