

# 38 Special, What's It To Ya?

I was feelin like a prisoner inside myself  
I saw you  
Lookin like you might be  
In a mood to try anything that was new  
Don't be starved for the love and laughter  
Break through total stranger  
You only get one life  
This night could be like no other night  
You and me  
Find the fire in our hearts  
And dance in the light  
Yeah  
We'll take our chances  
How can we lose  
We're making our own rules  
This night can be like no other night  
There's a child I can see in the back of your eyes  
Dyin to be set free  
Let the hunger inside you bring it alive  
Baby  
This night won't last forever  
Break loose  
Girl remember, you only get one life  
This night can be like no other night, you and me  
Can find the fire in our hearts  
And dance in the light  
Yeah  
We'll take our chances  
How can we lose, we're makin our own rules  
This night will be like no other night  
Yeah yeah  
Time you don't use  
You lose it  
You grab every moment you can, before it's gone  
When you can feel, you really  
Know that you're alive  
Show that you're alive  
For one night and  
This night can be like no other night, you and me  
Findin the fire in our hearts  
And dance in the light  
Oh yeah  
We'll take our chances  
How can we lose, we're makin our own rules  
This night will be like, be like no other night
