

38 Special, You Definitely Got Me

Ring ring goes the telephone bell
Sorry but I'm not at home
The cute voice the sexy sell
Leave a message Leave a message
I clutch I say too much
I trip on my tongue I mumble and such
Please baby
Would it hurt to stay in touch
Ain't gonna play I'm gonna lose it either way yea yea
Ain't gonna play no way my friend you win
Now you got me where you want me
Now you definitely got me
Now you got me where you want me
Now you definitely got me
Got up and headed downtown
Lookin' for some superficial action
Didn't really wanna mess around
Just felt kinda lonely
I walked through the door of our usual haunt
Liked to pop my eyes
There you were on the dance floor
Shimmying with some other guy
Ain't gonna play
I'm gonna lose it either way yea yea
Ain't gonna play no way my friend you win
Chorus
Now you got me where you want me
Now you definitely got me
Now you got me where you want me
Now you definitely got me
Now you got me where you want me
Now you definitely got me
Now you got me where you want me
Now you definitely got me
Holdin' on like a thread to a needle
I guess this is love
Knocked down like a boxer in trouble
No denying it ain't gonna try and hide the truth
You definitely got me
Now you got me where you want me
Now you definitely got me
