White Town, The Story Of My Life

I finished the story of my life
About three a m last night
It's the best thing I've ever read
And though the start seemed to drag
You know the middle really wasn't bad
And the end turned out okay

If I had to edit anything
I might reign those chapters in
I spent miserable and afraid
But you know I love the book as a whole
I wouldn't mess around with it's soul
Pull a thread and it might come undone
