Wildhearts, Get Your Groove On

There will be evil that tries to disable
They fight, take, start wars
Try to make you take the poison
Try to get some kind of reaction
You don't need this situation
Ignore this irritation

Get your groove on

Some will annoy you
And bore you as they do
Just stop, think, calm, walk
Rise above this aggravation
Do not give in to temptation
You don't need this situation
Ignore this irritation

Get your groove on
