

3moonboys, Charlie Sleeps... (to memory Charls

You keep me up all night
I've got no where to hide
From the vision you left behind
Though I try to fight
The more I twist and turn
the more I need you now
And I cannot erase the picture of your face
I lie awake thinking
of the time Before
you came into my life
Suddenly you took me by
surprise You opened up my eyes
You keep me up all night
I've got no where to hide
