Kaiser Chiefs, From The Neck Down

You're beautiful
In every way
From the neck down
From the neck down

The kind of face
That could sink ships
Not in a good
But in a bad way

You love her but you don't wanna show her to your friends
You love her but you don't wanna show her to your friends
You love her but you don't wanna show her to your friends

I've got a fast car
We keep the top up
Lets keep the top up

You love her but you don't wanna show her to your friends
You love her but you don't wanna show her to your friends
