Kamp!, Melt

I praise you for this one more time,
It seems like tonight we?ll never see the end.
I praise you for this one more time,
It seems like tonight you?ll never be the same.

I call you on the waking skies,
You keep to the night, I should just let you go.
I wait too long, but it?s not enough,
It seems like this night we?ll never see the end.

The stairs come down?

I praise you for this one more time,
It seems like tonight you?ll never be the same.

I praise you now for this one last time,
It seems like tonight we?ll never see the end.
Call you on the waking skies,
You keep to the night, I should just let you go.

I wait too long, but it?s not enough,
It seems like this night we?ll never see the end.

Send me fast into the night,
Come back to it just one more time.
Send me fast into the night,
Come back to it just one more time.

Send me fast into the night
It will take away the love.
I reach for you just one more time,
It will take away your love.

Send me fast into the night
It will take away the love.
I reach for you just one more time,
It will take away your love.
