Killer, If This Is All

Feels like a century has passed
Since I had a blast
Since I held my stomach and just laughed

I don't know what I'm looking for
It's just that I'm so bored
I'm restless or I'm buried in my thoughts

If this is all that you can give
If this is all I have to live
If this is all...

All that I'm trying to say
Is we're not on the same wave
You think you got my number with my name

Still you have the nerve to break
The silence and say hey
Is this just some kind of game we play

No, it's not that I don't care
But you're being so unfair
I'm calling the whole thing off
