Kim Richey, Let It Roll

When I'm a breath away from going down
A step away from losing ground
And the price for love has come due
And when I'm just barely hanging on
On the edge of too far gone
And I need something to get me through
CHORUS 1:
When there's no reason to believe
And life ain't all it's cracked up to be
Let it roll over me
When my last chance goes up in smoke
And I can't see a shred of hope
And the tears can't wash away these blues
And when my best shot keeps fallin' short
And I don't care much anymore
'Cause my poor heart feels used
CHORUS 2:
When love ain't all that fair
I sing out a simple prayer
Let it roll over me
Let it roll, let it wash away
Let it all fall where it may
Let it roll right over me
CHORUS 3:
When there's no place left to run
Yeah, if that day should ever come
Let it roll over me
Let it roll over me
