Kinky Machine, Crashing the Ambulance

Heading for a break down
Or may be a pile up
??
They always wanna cut me up
I know just where I'm heading for
I've been there many times before
In the silence of the night
Come the sirens of the flashing blue lights

Crashing the ambulance
Crashing the ambulance
Crashing the ambulance
Crashing the ambulance

You wanna make small talk
That's nothing I mind
I'm looking for a plank to walk
I only wanna kill some time
I know just where I'm heading for
I've been there many times before
In the silence of the night
Come the sirens of the flashing blue lights

Crashing the ambulance
Crashing the ambulance
Crashing the ambulance
Crashing the ambulance

And when I put your foot down my heart beats faster
I know I'm heading for the next disaster

We're starting our own universe
And if you think that that's right
It'll only make your eyes hurt
And keep you late up every night
I'm ??
I think I'm gonna go there soon
In the silence of the night
come the sirens of the flashing blue lights

Crashing the ambulance
Crashing the ambulance
Crashing the ambulance
Crashing the ambulance
...
