Kobra And The Lotus, Losing My Humanity

powerless

you've crippled all I've got inside
who are you to bring this sickness to my mind?
I'm losing all of my humanity
such ignorance is bliss

silencing pain that no one wants to see
take a good look around
we're toxic
and just how do we explain ourselves?
We're corrupted!

we kill (we kill)
we steal (we steal)
We hide from what is real

A world of humans with no humanity!

taste your words before you spit them out
abusing others is only hurting yourself
you're losing all of your humanity
don't turn your face away

silencing pain that no one wants to see
take a good look around
we're toxic
and just how do we explain ourselves?
We're corrupted!

we kill (we kill)
we steal (we steal)
We hide from what is real

A world of humans with no humanity!

Does it make me a sinner
if I stood there in silence?
Does it make me a sinner
Forsaking all that I saw?
Does it make me a sinner
if I still let it happen?
If I knew it was wrong
does it make me
Does it make me THE SAME?

take a good look around
we're toxic
and just how do we explain ourselves?
We're corrupted!

we kill (we kill)
we steal (we steal)
We hide from what is real

A world of humans with no humanity!

say goodbye to your humanity!!
