Kurhaus, New Age Pestilence

yeah, this is real!
yeah, this is right now!
no, i can't heal you!
you are already dead!
human scum - killed by virus god!
i'm the last of the sane!
inhale the sound of silence
new age pestilence
wake up!
virus god
hey, look at me!
hey, see my eyes glow!
yeah, i'm already dead!
smile, soon you'll join us!
seraphim of a virus god
just one word: evolution
inhale the sound of silence
new age pestilence
your future is not bright
your future means darkness
two generations, not more
your days are numbered
this system will collapse
new world out of order
poor people gonna rise up and get what's theirs
poor people gonna rise up, get their share
their vengeance will be righteous
still time to change sides
still time for changes...
(white silence!)
