Leila K, It Feels So Right

One two three four five
I ain't gone
Let's do something cool
Give it a show

This time - this time is time to get wild
Time to rock and scream and shout
All right, c'mon, let's set things strait
I'ts friday night, and I don't live with the groove
Chilling in the backstreets, listeing to the groove
Sound's direct and loosing lips

Fill up the fuel here
And we were out of here
The car turn and turn and we were out
Running and crowding and eating crisps
Salt'n'pepper burning on my lips

Yes of course, I've got a grip on my lips
When the other stop talking
But need you was popping
Lease and brase, making no mistakes
The needers were going
The rythm was back

It's time tonight
It feels so right
M-m-m
Yeah it's time tonight
It feels so right
M-m-m

Yes my man, c'mon and take command
Cause in your hands you're the number one band
Taking it downstairs, just like a superman
I think you're for real, that's how I feel

Cause you look cool, fine, and so devine
You blow my mind, I just gotta make you mine
Define your love and soul
Cause I don't really know what to do or where to go

I think I've finally found my tressure
I know we've got something special
Let's messure, and pleasure our passion for me
Love guarantee, my attraction you see

Love action, satisfaction
Yeah that's the key to open up me
Hope is a bluff
Fake that's reality
Therefore there shall be no distruction

It's time tonight
It feels so right
Yeah yeah yeah yeah yeah yeah
It's time tonight
It feels so right
M-m-m
It's time tonight

It's time tonight
It feels so right
M-m-m

It's time tonight
It feels so right
Yeah yeah yeah yeah yeah yeah

It's time tonight

M-m-m
It's time tonight
It feels so right
M-m-m
It's time tonight
It feels so right
