Letter Kills, Clock Is Down

The clock is down
and I am losing one day at a time,
well who'd have thought
our hands would stop right here
Maybe I could still forget you
for just a little while
cause everything you said
is coming back in time
Maybe I
should say goodbye
I'd like to run away
Id like to say a few things to you,
About the way I feel inside
Id like to run away
Id like to say a few things to you,
About the way I feel inside
the clock is down
and I am losing
one day at a time,
I still remember the first time you were here
and every time I see your picture
I thank god for a smile
cause everything you said
is keeping me in line
Maybe I
should say goodbye
Id like to run away
Id like to say a few things to you,
About the way I feel inside
Id like to run away
Id like to say a few things to you,
About the way I feel inside
The last signs will never stop him
The last signs will never stop him
The last signs will never stop him
The last signs will never stop him
The last signs will never stop him
I tried to fake it, but I couldnt hold it in.
The last signs will never stop him
I couldnt hold it, I couldnt hold it in
Maybe I
Should say goodbye
Id like to run away
Id like to say a few things to you,
About the way I feel inside
Id like to run away
Id like to say a few things to you,
About the way I feel inside
