

## 4 Non Blondes, Morphine and chocolate

Substitute my gloom with happiness  
Substitute my sickness with health  
Substitute my enemies with real good friends  
Morphine & chocolate are my substitute, substitutes  
Morphine & chocolate can bring me up  
Can warm my heart whenever I want it  
And every once in a while when I stop and think  
Morphine & chocolate are my substitute, substitutes  
And you can say "hey, we've really come a long way"  
And you can say "say, it can only be this way"  
But, you might be careful, it really, it really come a long way  
And you can say "hey, it can only be this way"  
But, you might be careful, it really hurts when it's real  
You might be careful, it really hurts when it's real  
You might be careful, it really hurts when it's real  
You'll go down, down, down, ooh  
Set the alarm clock, baby,  
Don't you miss the sun?  
I'm feeling really warm hearted baby  
Don't you know I'm feeling like someone  
I'm fearing for my heart  
Morphine & chocolate could never substitute my art!  
And that's real love baby  
And that's real love baby  
And that's real love baby
