Lorene Drive, Change Of Occupancy

I never said I didn't do it,
Don't give me that look again (that look again)
She cant go there and
I'm just too scared,
I slightly said calmly

I'm not so calm
Anymore,
Any longer

I heard you scream out loud
What about me, what about me?
The place you felt the most,
Was the place that you hoped

So what do we do now?
Now that there's nothing left
Nothing left to give,
And I'm not perfect.
And I know, that you care
But just don't show me

She cant go there and
I'm just too scared,
I slightly said calmly..

I'm not so calm
Anymore,
Any longer

I heard you scream out loud
What about me, what about me?
The place you felt the most,
Was the place that you hoped
The place you felt the most,
Was the place that you hoped...

I'm not so calm
Anymore,
Any longer.. but I lie

I heard you scream out loud
What about me, what about me?
The place you felt the most,
Was the place that you hoped...
