Los Lobos, Corrido N1

It's been a long and loney lonely year
Since the last time I saw you, my dear
Don't you remember when I was in my surrender
I said, I'd always love you endlessly

Hey, little sweetheart, so how you doing now
I thought without me you probably would drown
I guess I was wrong and for that it is so long
Take care my darling, I hope to see you around

Parting with you I'll never ever get
Our love can be here and instantly regret
You showed me love and gave me understanding
Baby, with out you it's going to leave me shredded

It's been a long and loney lonely year
Since the last time I saw you, my dear
Don't you remember when I was in my surrender
I said, I'd always love you endlessly
I said, I'd always love you endlessly
I said, I'd always love you endlessly
