

4 Strings Feat. Tina Cousins, Catch a fall

More then sound I hear you speak
I am broken, I feel weak
Give into the feeling
I will stop beliving
That your love is out of reach
Catch a fall and I won't stand in your way
And I need you like a flower needs the rain (x2)
I will never watch you drown
Catch you gently, lay you down
I am frozen, but it's you I've chosen
And it seems I'll always be around
Catch a fall and i won't stand in your way
And I need you like a flower needs the rain (x2)
Like a flower needs the rain
