

# 4\*TOWN, 1 True Love (piosenka z filmu 'To nie w

Ooh, yeah, yeah

Heavy rain from my cloudy eyes  
Every time you say  
That isn't why I used to call you babe  
But you're the light of my life

I drove by your house twenty-nine times today  
And nobody else could make me feel this way  
Nobody else, nobody else  
Nobody

'Cause you've opened my eyes and stolen my heart  
You make me believe that love can be hard  
And I can never survive a minute apart  
You are my one true love, my one true love  
My heaven above, my one true love

Heavy rain on a Saturday  
When you said my name in the saddest way  
Nothing numbs the pain  
You're still the light of my life

I drove by your house ten-thousand times last year  
Nobody else wanted to dry my tears  
Nobody else, nobody else  
Nobody else

'Cause you've opened my eyes and stolen my heart  
You make me believe that love can be hard  
And I can never survive a minute apart  
You are my one true love, my one true love  
My heaven above, my one true love, yeah-yeah

Nobody else
