Maarja, Say You Will

You keep me waitin' for your call
gimme an answer
don't you want me anymore, baby
do i really know you after all
cause i'm taking my chances
cause i love you, that's for sure

It's devine when you read my mind
i don't wanna lose the magic in your eyes
(so) if you mind, come on say it,say it

Chorus:
Say you will, say you wanna be there for me
i can wait forever, tell me that we're together
say you will, say you wanna be there always
love me now or never, come on say it,say it
say you will

I think you mean that when you say
that i make you happy
that i can give you what you need, oh yee
you gotta give me something, make me sure
please don't give me waitin'
silence make me insecure

It's devine when you read my mind
i don't wanna lose the magic in your eyes
(so) if you mine, come on say it,say it

Chorus

Don't you know, my dreams are built upon
understanding and divotion
baby give me your emotion
don't you know, what love it can upon
if you wanna give me
come on say it,say it,say it

Chorus(2x)
