

40 Below Summer, P.S I Hate You

Show me your eyes
It's a place that I won't forget
This you realize
Coming back to the spaces and places again
So we can relive
The anger that rests inside of my soul
Not that you care
Just getting the you inside of myself

So figure out how
You're so alone now
You're fake and stupid
You're so
You're so diluted
No

Give me a sign
So I can explode
Reload and get the fuck up
Swallowed alive
Pick up the peices of me because you walked out
That eat me alive
Nowhere to live and nowhere to die
Crawling inside
Sucking a dick but leaving me dry

So figure out how
You're so alone now
You're fake and stupid
You're so
You're so diluted

You're so diluted
So diluted

I know your wrong
I hope your happy
You know you're wrong
So I hope you're
Happy with your

Changing faces (Yourself)
Changing faces (Yourself)
Changing faces (Yourself)
Changing faces (Yourself)

Figure out how
You're so
You're so alone
Now

Figure out how
You're so
You're so alone now
You're fake and stupid
You're so
You're so diluted

So figure out how
You're so
You're so alone now
You're fake and stupid
You're so
You're so diluted

Face
Why can't I see your
Face?
Why can't I see your
Face?
Why can't I see your
Face?
Why can't I see your
