# Madrugada, Lucy One

Lucy
Relax
All way down
Clean
The first born
Lucy one
Oh hey come on
Lucy one
The power
And a strong need of scars
Bone upon bone
Lucy one

Touch me
Stone by stone
Lucy
We are both flesh and bone

Hey we can dissapear here without
Nobody even noticing it
We are new and improved
We are new and improved

Oh lucy
Lucy one
Got such a big hand
Such a big hand such a big big voice
There's such power in me
Such greatness
Such pain
There is enough of me for you
Oh lucy
Let me get through to you

Hey kid we can dissapear here without
Nobody even noticing it
We are new and improved
We are new and improved

Oh lucy
Oh lucy one
Gonna fly all the way home now lucy one
Touch me stone by stone lucy one
Oh I love you
We are one

Blood, flesh, hand, way, escape, power, fire, love
Bone upon bone
And a stone upon stone
I love you
Oh I love you

Ready
Lucy one
Buried
Oh buried
Yeah in the blast of the bones
It's conceived in love
Oh lucy
Oh lucy one
You're gonna fly all the way home now Lucy one
Oh lucy one
