# Mandy Moore, We're Dancing

When the goin starts to get rough,
and you feel like you've had enough,
let the music....take control of your soul

Take a chance and do what you feel,
Your voice, they cannot live without it
You gotta break the chain yeah

There's a passion inside
Inner strength that drives
Can't nobody take that away from you
Its the greatest high
Set the floor on fire
When you come alive

And we're dancin,
and it feels alright,
I can't control my desire
And we're dancin,
and it feels alright
yeah
And we're dancin,
and it feels alright
cant hold me down
gotta reach for the sky
And we're dancin,
and it feels alright
yeah

Some people dont know the love you present(love you present)
they pretend but the dont understand
its natural, you're in a world of you own

Theres a passion inside
Inner strength that drives
Can't nobody can take that away from you
Its the greatest life
Set the floor on fire
When you come alive

And we're dancin,
and it feels alright,
I can't control my desire
And we're dancin,
and it feels alright
yeah yeah yeah

push it to the max
feel the move, oh to your beat
dont you dare hold back
cause it feels so good inside

There's a passion inside
And a strength that drives
Can't nobody take that away from you
Its the greatest life
Set the floor on fire
When you come alive

And we're dancin, (yeah)
and it feels alright, (it feels alright)
I cant control my desire
And we're dancin, (yeah)
and it feels alright

yeah
And we're dancin, (yeah)
and it feels alright (feels alright)
cant hold me down
gotta reach for the sky
And we're dancin,(yeah)
and it feels alright
yeah yeah yeah

and we're dancin!!!
