

# 4 Dreamers, Inapropro

tryna keep it all together now  
but all of my senses let me down  
only feel like this when you're around  
even when I go to meditate  
sitting with my legs crossed Namaste  
I can never see you another way

this building tension got me out of touch  
my best intentions somehow ain't enough

kaying down on your life  
you gimme all kinda high hopes  
in my head it's a war zone  
so inapro pro  
I was gone from the get go  
now my chilling is a no show  
in my head I got bad thoughts  
so inapro pro  
so inapro pro  
so inapro pro

wish that i could stop and settle down  
keep it on a higher level low  
make my grandma and my momma proud

but my mind's outta my control  
like I am tied up won't let me go  
what I'm thinking you'll never know

this building tension got me out of touch  
my best intentions somehow ain't enough

lying down on your life  
you gimme all kinda high hopes  
in my head it's a war zone  
so inapro pro  
I was gone from the get go  
now my chilling is a no show  
in my head I got bad thoughts  
so inapro pro  
so inapro pro  
so inapro pro

now that I look in your eyes  
you got me so hypnotized  
the feelings I carry inside  
get me so hard every time

now that I look in your eyes  
you got me so hypnotized  
the feelings I carry inside  
don't ever die /2x

laying low on your life  
you gimme all kinda high hopes  
in my head it's a war zone  
so inapro pro

I was gone from the get go  
now my chilling is a no show  
in my head I got bad thoughts  
so inapro pro  
so inapro pro  
so inapro pro
