

4HIM, Let Your Kingdom Come

A little child is huddled in the corner
He is crying in the night
All he knows is that in spite of what they tell him
Everything is not all right

Theres a war raging outside his window
Theres a war raging inside his head
So he prays for what every child should have:
To be warm and safe and sleeping in his own bed

Chorus:
Let it rain
Let it fall
Let your kingdom come
Let it rain
Let it fall
Let your kingdom come
Let your kingdom come

Theres a mother begging change down on Broadway
But the world keeps passing by
All she wants is just some milk for her baby
She and the baby both start to cry

Cause hell grow up in a culture of darkness
With a hunger he cannot name
And she wonders what can she do to save him
From all of the hurt and the lies and the shame

Repeat Chorus

Bridge:
I still believe you are the hope in a hopeless world
I still believe you are the light were looking for
I still believe
I still believe in You

Repeat Chorus
