Monika Ferens, With You

You lie deep
But still amazed and unforgettable
Like it keeps on going on and on
I loath me
For living so shortly with you
And Ive been never able to meet you
But I dont cry
Ive cried enough
And though well never bring you back
All thoughts leads straight to you
Im under your wings
Though way to all is hard and long
But if youre here I hold on
I crave to be here with you
Suffer and cry with you
I pray you hear me
And everythings good with you now
Youve felt and seen too much
To get through it once again
Ive seen it to
And so much pitied
I believe you taught me as many as I didnt know
I crave to be here with you
Suffer and cry with you
I know Im coming for you
And Ill do what I have to do
I miss you
Not only me but everyone around
Were missing you
After what they did to you I miss much more
Im under your wings
Though way to all is hard and long
But if youre here I hold on
I crave to be here with you
Suffer and cry with you
Im missing you
Ill never forget you
