morphine, Let's Take A Trip Together

let's take a trip together
headlong into the irresistable orbit
breathe in the cold black space
with the glistening edges
let's take a trip
me and you
let's go the scenic route
get to finally get to finally get to finally
get to know eachother
just to be alone with you
just to be alone
just to be alone with me
somewhere there's no distractive
breeze of information
leaking through the windows
dripping from the trees
somewhere there's no earthquakes
no other people's anxious questions
no nervous wrecks
going down
no nervous wrecks
going down
let's take a trip together
headlong into the irresistable orbit
