Cuz I want you to trip it, yea, I be on that shi-deh (not sure about this line)

Off your ass, I pay the lawsuit and laugh (Ha-ha)

It's not a big deal, it's nothin but some cash

(50 Cent)

(Eminem)

When me and fif got together to do this music

The more we became enveloped we just developed a fellowship through it

It's no pretentious, this friendship, me nemesis is su nemesis

Ain't for him, this is media, see to them its just images

But this shit is no gimmicks

This is blood in and blood out

When there's beef you just gotta know when to butt in and butt out

If there's a problem we solve it

We don't resolve it, it usually just evolves into one big brawl and we all get involved in it

We should all get a merit, this much beef we inherit

And wear it like a badge, around our, pass it around and share it

And let it go to whoever's holding the most current peep on they shoulders

And the soldiers got their backs and its ova

But tonight we ain't comin here to beef with nobody

We came to party

Banks, Cashis, and Mr. Ferrari

So its Shady After-mizz-ath, backin that ass, you wiz-ass

Come-izzle-hmm

What kinda puzz-up-ple position is that
