My Brightest Diamond, Magic Rabbit

I had a magic that could sing
Maybe I took her from her mother too early
She never came out of recovery

Even on summer days she'd complain
She couldn't take the chill out of her bones
Maybe I took her from her mother too early
I put her outside in the sunshine

All the rabbits died for supper tonight
All the rabbits died in the spotlight

I had a magic that would sing
And boy oh boy was she a pretty thing
By some great mystery she looked to me
Like she was wearing thin

Are you fading away magic
Are you fading away
Are you fading away all the rabbits died
Are you fading in the spotlight

Are you fading away magic
Are you fading away all the rabbits died
Are you fading away in the spotlight
Are you fading my magic rabbit
Magic, oh
Are you fading away magic
Are you fading away, rabbit, rabbit, rabbit
