Mytown, Party All Night

Come On, Mytown, Yeah, Can You feel me?

Get down, get on and make some noise
Gonna get down with the Mytown boys
Gonna get you in the mood to party all night
Get down, get on let down your hair
There's people dancing everywhere
Gonna get you in the mood to party all night

Here comes the weekend once again
Jump in the car and tell your friends
Checking out some grooves on the way
Because tonight, Is the night
Everything's gonna be alright
Honey's jumping 'cos you got paid
Friday night is comming- Yeah..
And things will be alright

Get down, get on and make some noise
Gonna get down with the Mytown boys
Gonna get you in the mood to party all night
Get down, get on let down your hair
There's people dancing everywhere
Gonna get you in the mood to party all night

Hey DJ let the record spin
Everybody get up and shake that thing
Let the music take you over
So get down, with the town
You know we don't stop
When the sun goes down
Bring it on down to the floor
It's time to rip this up some more
Saturday night is comming
And things will be alright

Get down, get on and make some noise
Gonna get down with the Mytown boys
Gonna get you in the mood to party all night
Get down, get on let down your hair
There's people dancing everywhere
Gonna get you in the mood to party all night

Everybody knows that the boys have got the feeling
Everybody knows that the boys will be around
Everybody knows that the boys have got the feeling
Everybody knows that the boys will be around
