Naturally7, Comfort You

One set of footprints in the sand
And you wonder where I am.
Cause it was hard for you to see
That the man you saw was me.
Cause if you fall I'll catch you
Cross my heart
You wonder why I have to
That's my part
Chorus
Don't worry you're not alone
Ain't that what I told ya
I promise, when cold just gets colder
If you should fall.. pick you up
That just makes us closer and closer
I'll comfort you so don't you worry
I saw you wounded, down in pain
And I heard you call my name
But what you didn't know for sure
Is that I knew you would before.
Cause when you fell, I caught you
You fall so much
You didn't know? I thought yo
u Knew my touch
Chorus
(With descant) Rest on my shoulder
And I'll hold ya
I do what I have to do when it comes to you
I'll be anywhere you want, just say you want me to.....
Chorus
Ooh Don't you worry I am always here
If you ever need me, I'll be there.
I'll take you in my arms and hold ya
I'll carry your weight on my back if I have to
I'll carry your weight on my back if I have to,
Yes I will.....
Chorus
I'll carry your weight on my back if I have to....
Yes I will.
