Nelson, Tell Me

You kissed your loved one good-bye
On a cold, foggy day
I guess you didn't know that I'd go so far away
You knew there'd come a time
When the road would call my name
And we'd have to put a hold on
All those dreams we made

So take my heart - I've already taken yours
This wound won't heal

I'm alone and cold inside -
Is there a moment we haven't shared
Two hearts drawn as one -
Now I stare at an empty chair
You called and said last night
I've been waiting for your kiss
Still I lie here at night as I think of the things I miss

So take my heart - I've already taken yours
This wound won't heal

Tell me - do you miss me like I miss you girl?
Hold me - in your heart - I'll never be lost again
Tell me - do you miss me like I miss you girl?
Hold me - in your heart - I'll never be lost again

Distance keeps burning inside of me
I need you with me - oh girl, tell me

You kissed your loved one good-bye
On a cold, foggy day
I guess you didn't know that I'd go so far away

Tell me - do you miss me like I miss you girl?
Hold me - in your heart - I'll never be lost again
Tell me - do you miss me like I miss you girl?
Hold me - in your heart - in your heart why don't you tell me
Tell me - you know, I didn't wanna leave you girl
Hold me - in your heart, I've already taken yours
Tell me - won't you tell me, do you miss me
Do you miss me like I miss you girl?
Hold me -i'll never - I'll never be lost again
