# Never Heard Of It, Last Letter Read

I erased your name
Pictures all thrown away
Its easier this way

Things were good
I never should have been so scared
To be so happy
Never thought I could
I would have never thought
Id feel this way

Are you my friend
To me I lost my friend
I did and said some things
It wasnt fair
Youre the text inside my book
That isnt there anymore
Are you my friend

I listened to that CD
Read those letters one last time
Remember when wed drive to San Diego
We would laugh Id hold your hand
And we would stay those nights
Did you ever think I would say

Are you my friend
To me I lost my friend
I did and said some things
That Id regret
Im the lyrics on the black CD
Youll get from me
To you my friend

I called you yesterday
I called you like a month ago
To say Im sorry
The times I talked to you before that time
It never was you

Are you my friend
To me I lost my friend
I did and said some things
It wasnt fair
Youre the text inside my book
That isnt there anymore
Are you my friend
To me I lost my friend
I did and said some things
That Id regret
Im the lyrics on the black CD
Youll get from me
To you my friend
