What I might  
Is whether (?) bleed with passion  
See this drug game to me  
Is like a fatal attraction  
Salvation from this life  
Thats what I need  
See these jealous ass niggaz  
Wont let me breathe  
Will I succeed in this cold world?  
Pray for me please  
I dont get caught up in this rap life  
A dying disease  
Over seas is where they come from  
We know who sent them  
If them bitches six-teenth  
I believe ill get them  
I aint fuckin with no new niggaz  
Believe im ballin  
If I ever go to jail  
Big Boz im callin  
Will my real niggaz ride for me?  
Believe they will  
If I get killed  
Bring me back to the IvoryVille  
Nigga

[Chorus (X2)]

[D.I.G.]

They say only god can judge me  
My peepz say "yeah there be world war 3  
Prolly in the year 2 G

So I give it to them raw  
In the heat of the night

Next to the Last Don  
Nigga thugged out for mine  
A Made Man  
The Bossalinie of the scenery  
And be full of that greenery  
When you peepin me

Ima hit them with these ghetto ingredients  
Some ghetto dope
