Old Man River, Better Place

Here comes the morning sun
Shins on everyone
But it doesn't shine on you
It's only passing through
And you already know that all the words you throw
Won't make it go away
It's here to stay

So take me to a better place
The one you know
Take me to a better place
Where I can grow
And teach me how to lose
All I know
That's all I know

Winter just begun
It rains on everyone
But it doesn't rain on you
It's only passing through
And time it goes so slow
It only goes to show
How easy it could be
To set you free

So take me to a better place
The one you know
Take me to a better place
Where I can grow
And teach me how to lose
All I know
That's all I know
