

5ive, It's Alright

Alright, c'mon, oh baby, alright
I need some time to get my heard round
The things you said to me
Thoughts are whirling round my mind - alright
I never knew that I could feel so strond
Like the way I feel for you
That seemed impossible to me - alright
Said oh oh, I wish that you could see
Said oh oh, it's the way it's meant to be
Yeah

CHORUS

You're the only one I want at night
You keep me warm and make me feel alright
Y'know that we can work it out
Coz it's alright
I only wanna share my life with you
Coz I love all the things you do
Coz, I know that it's alright
C'mon
You know that I'm a dreamer
I can change reality
Y'know it's good times when we're together
C'mon
We could take our love around the world
We could dance upon the sea
A little bit of work won't be forever
C'mon
Said oh oh, I wish that you could see
Said oh oh, it's the way it's meant to be
Yeah

CHORUS

You're the only one I want at night
You keep me warm and make me feel alright
Y'know that we can work it out
Coz it's alright
I only wanna share my life with you
Coz I love all the things you do
Coz, I know that it's alright
Now I've been sittin' reminiscing
Bout the way we used to be
And how I want those feelings back
Because they mean the world to me
So check it
I've seen around the world
Climbed the highest heights
To prove my love for you is real
To keep you warm through winter nights
Now baby, I wanna let you know
The way you got me feelin'
It's guaranteed to keep me here
Because we're reelin'
When there's a problem
Together we can solve 'em
Yo, all we gots to do is keep
That perfect world revolving
Said oh oh, I wish that you could see
Said oh oh, it's the way it's meant to be
Yeah

CHORUS

You're the only one I want at night
You keep me warm and make me feel alright
Y'know that we can work it out
Coz it's alright
I only wanna share my life with you

Coz I love all the things you do
Coz, I know that it's alright
Ooh check it
Ooh, ooh, ooh, ooh
